exchange service

milkrite[®]
feel the difference

impulseAir®

It's so easy

- Easy liner change
- We manage the process for you
- Hygienically cleaned parts
- Complete claw maintenance

Managing your change process and maintaining your cluster will improve animal health and milk quality.

It will save time and money

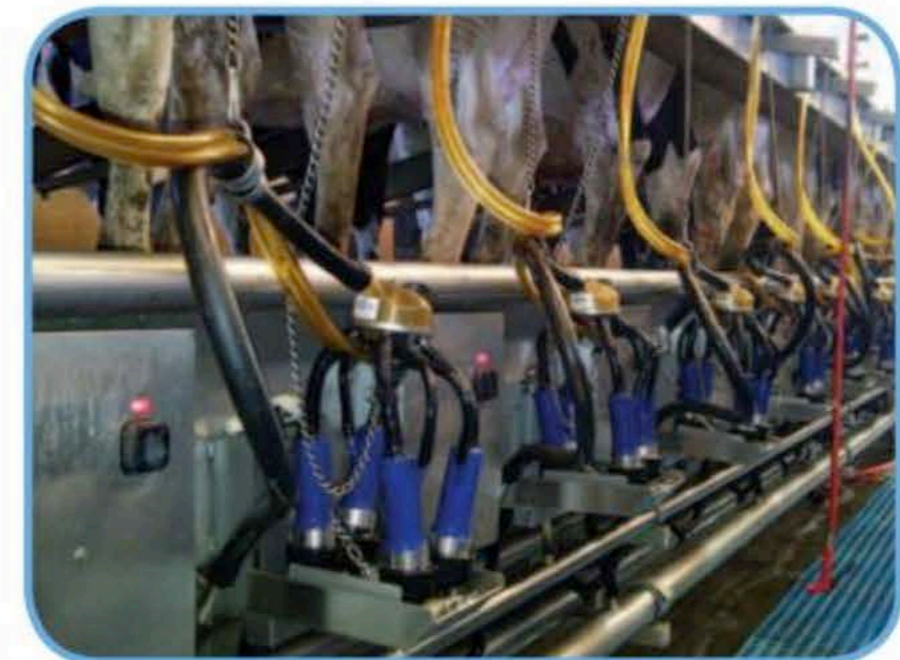

AUTOMATIC SCHEDULING

We make the change process effortless and easy

Changing liners is always low down on your activity or priority list so we take out all the effort for you

- When you sign up to the service we take all the details of your herd and parlor size – and calculate for you your planned change dates
- On your planned change date fresh, hygienically cleaned clusters arrive, assembled ready to go
- Now all you have to do is take off the used clusters, fit the new ones and then give us a call so that we can collect your used clusters

THAT'S IT!

CLUSTER TECHNOLOGY

We use the latest technology to improve milking efficiency and improve teat health.

THE LINER

impulseAir®... the biggest advance in actually milking the cow in a generation

- Improved teat end condition and greatly reduced congestion of the teat
- Liners stay on the teats better, with reduced squawks and slips
- Drier teats – because milk is taken away more efficiently
- Anti-twist feature

PULSATION AND VACUUM CURVES THROUGH THE MILKING CYCLE - AT LOW FLOW

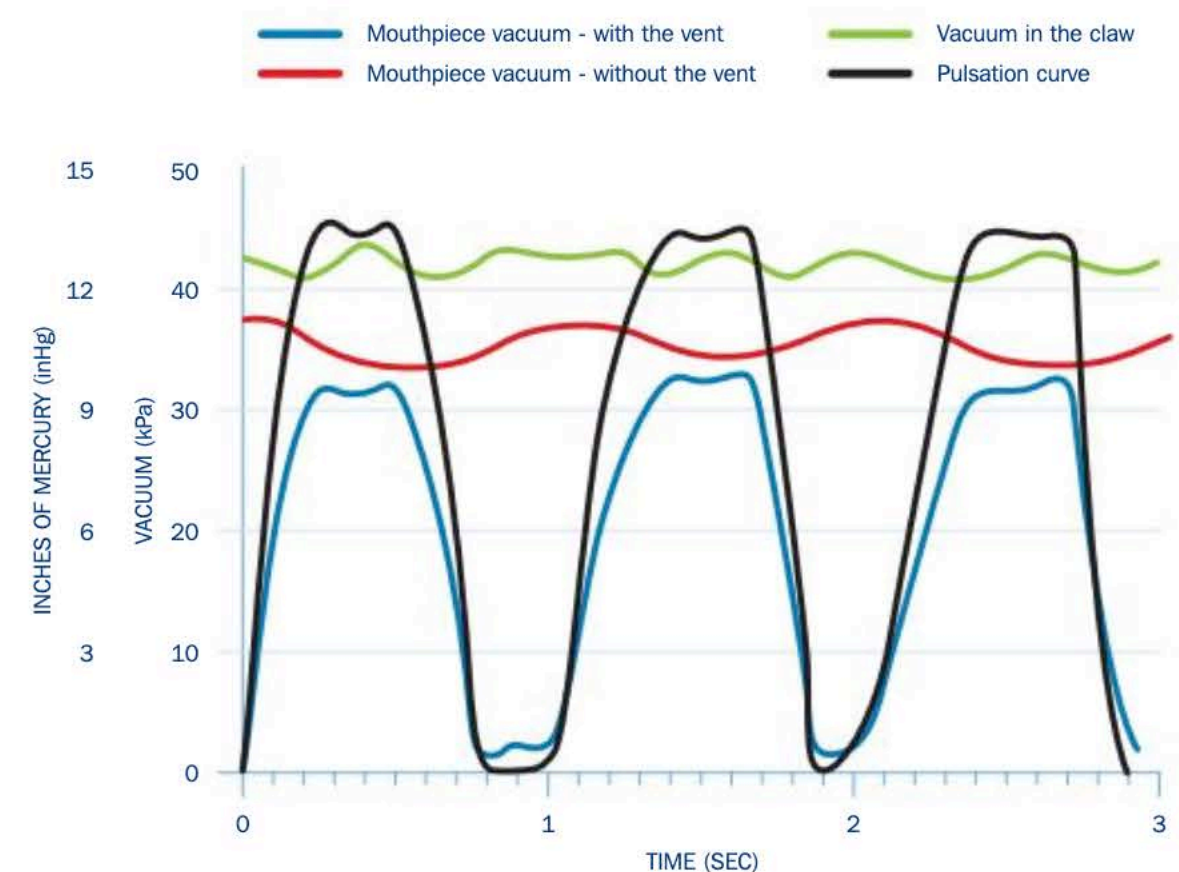

Chart shows reduced vacuum acting on the teat when using Impulse Air which gives improved teat condition

THE CLAW

impulseclaw[®] 300

- Superior vacuum stability
- Ergonomic design
- Lighter weight and robust design to avoid breakages
- Easy assembly and disassembly to aid cleaning
- Inlets positioned to give balanced alignment of the claw from front to back teats
- 300cc capacity

And don't forget the Air Tubes

- We check and maintain your air tubes for you.
So no more leaking air tubes!

CLUSTER MAINTENANCE

We maintain the cluster for you

Have you ever thought about the costs you have to pay to maintain your cluster?

A broken claw bowl?
Seals that age and break?
Air tubes that cut and crack?

Now there are no more costs for replacing or repairing these parts. It's all inclusive within the service

- Lifetime guarantee on all parts
- We maintain the claw
- We change the air tubes when required
